

## BEAN TO CUP

# Coffetek Vitro S1

The CoffeTek Vitro S1 Espresso can make 50 cups of coffee per hour, a compact coffee machine designed to provide quality espresso-based drinks. Ideal for the smaller organisation where instant drinks are required, users can choose from a single espresso or make themselves a latte thanks to the granulated milk option.

So simple to use; you select your drink, and the machine does the rest. Connected to mains water, the S1 is great for waiting rooms, car showrooms and offices where moderate volumes are required.
