

AUTOMATIC

Rex Royal S300

The ideal coffee machine for demanding catering environments, the S300 is a stylish yet efficient solution. We recommend S300 in areas requiring up to 80 coffees per hour. You have a fridge for fresh milk on one side of the coffee machine with options for various cup warmers on the other.

Inside are two instant canisters enabling drinks such as velvety hot chocolate or a range of more creating drinks such as a sweet vaniloccino. With two precision coffee bean grinders, the S300 can grind up to 23 grams of coffee for each drink (including two coffees simultaneously), providing full flavour and flexibility in creating quality, full-bodied coffees tailored to your brief.

*ALSO AVAILABLE AS MCTI, MCST, MCSTI & MCT
